Statement of Ownership, Management and Circulation
(Required by 39 U.S.C. 3685)

1A. Title of Publication	1B. PUBLICATION NO.	2. Date of Filing
Journal of Orthopaedic Trauma	0 0 3 6 7 1 1	October 1, 1994
3. Frequency of Issue	3A. No. of Issues Published Annually	3B. Annual Subscription Price
Bimonthly	6	$140 US / $180 Foreign

4. Complete Mailing Address of Known Office of Publication (Street, City, County, State and ZIP+4 Code) (Not printers)

1185 Avenue of the Americas, New York, New York 10036

5. Complete Mailing Address of the Headquarters of General Business Offices of the Publisher (Not printer)

1185 Avenue of the Americas, New York, New York 10036

6. Full Names and Complete Mailing Address of Publisher, Editor, and Managing Editor (Do not leave blank)

Publisher (Name and Complete Mailing Address)

Raven Press, 1185 Avenue of the Americas, New York, New York 10036

Editor (Name and Complete Mailing Address)

Philip G. Spiegel, M.D., Florida Orthopaedic Institute, 4175 East Fowler Avenue, Tampa, Florida 33617-2011

Managing Editor (Name and Complete Mailing Address)

Antoinette Cintron, Raven Press, 1185 Avenue of the Americas, New York, New York 10036

7. Owner (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given. If the publication is published by a nonprofit organization, its name and address must be stated.) (Item must be completed.)

Full Name	Complete Mailing Address
Raven Press, LTD	1185 Avenue of the Americas, N.Y., N.Y. 10036
Wolters Kluwer US	"SAME"
Wolters Kluwer nv (owns 100% of stock)	Stadhouderskade 1 1054 ES Amsterdam, The Netherlands

8. Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1 Percent or More of Total Amount of Bonds, Mortgages or Other Securities. (If there are none, so state)

Full Name	Complete Mailing Address
NONE	

9. For Completion by Nonprofit Organizations Authorized To Mail at Special Rates (DMM Section 424.12 only)
The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes: (Check one)

(1) ☐ Has Not Changed During Preceding 12 Months ☐ Has Changed During Preceding 12 Months

(2) If changed, publisher must submit explanation of change with this statement.

10.	Extent and Nature of Circulation (See instructions on reverse side)	Average No. Copies Each Issue During Preceding 12 Months	Actual No. Copies of Single Issue Published Nearest to Filing Date
A.	Total No. Copies (Net Press Run)	2734	2700
B.	Paid and/or Requested Circulation 1. Sales through dealers and carriers, street vendors and counter sales		
	2. Mail Subscription (Paid and/or requested)	2129	2168
C.	Total Paid and/or Requested Circulation (Sum of 10B1 and 10B2)	2129	2168
D.	Free Distribution by Mail, Carrier or Other Means Samples, Complimentary, and Other Free Copies	144	144
E.	Total Distribution (Sum of C and D)	2273	2312
F.	Copies Not Distributed 1. Office use, left over, unaccounted, spoiled after printing	461	388
	2. Return from News Agents		
G.	TOTAL (Sum of E, F1 and 2 - should equal net press run shown in A)	2734	2700

11. I certify that the statements made by me above are correct and complete. (Signature and Title of Editor, Publisher, Business Manager, or Owner)

Order Entry Supervisor (212) 930-9605

PS Form 3526, January 1991 (See instructions on reverse)

Journal of Orthopaedic Trauma
Vol. 8, No. 6, pp. 533–538
© 1994 Raven Press, Ltd., New York

SUBJECT INDEX

Abbreviated injury score
Motorcycle accident injury severity, blood alcohol levels, insurance status, and hospital costs: A 4-year study in St. Petersburg, Florida, 228

Absorbable device
Treatment of radial head fractures with absorbable polyglycolide pins: A study on the security of the fixation in 38 cases, 94

Abstracts
Ninth annual meeting of the Orthopaedic Trauma Association, 269

Acetabulum
Acetabular fractures: Long-term follow-up of open reduction and internal fixation, 397

Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34

The reliability of detecting screw penetration of the acetabulum by intraoperative auscultation, 404

SSEP monitoring during pelvic and acetabular fracture surgery, 127

Achilles tendon
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40

Acromion
Fractures of the acromion process: A proposed classification system, 6, 359

Acute respiratory distress syndrome
Does the reamer type influence the degree of lung dysfunction after femoral nailing *following severe trauma? An animal study*, 300

Adult respiratory distress syndrome
The pulmonary artery catheter: A diagnostic adjunct for fat embolism syndrome, 173

Alcohol intoxication
Motorcycle accident injury severity, blood alcohol levels, insurance status, and hospital costs: A 4-year study in St. *Petersburg, Florida, 228*

Amputation
Reconstructive amputation after grade IIIC open tibial fracture, 354

Aneurysm, false
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73

Ankle
Ankle dislocation, 167

Anterolateral subluxation of the talus after *overlooked dislocation of the tibialis* posterior tendon, 449

Biomechanical effects of internal fixation *of the distal tibiofibular syndesmotic joint:* Comparison of two fixation techniques, 215

Double-blind randomized *prospective study of the efficacy of antibiotic prophylaxis for* open reduction and internal fixation of closed ankle fractures, 64

Effects of imposed hindfoot constraint on ankle contact mechanics for displaced lateral malleolar fractures, 511

Ilizarov's technique in correction of ankle malunion, 520

Intraarticular contact stresses with *simulated ankle malunions, 159*

Plain radiographic interpretation in trimalleolar ankle fractures poorly assesses posterior *fragment size, 328*

Antibiotic drugs
The efficacy of various irrigation solutions in remote slime-producing *Staphylococcus*, 390

Antibiotic prophylaxis
Double-blind randomized prospective study of the efficacy of antibiotic prophylaxis for open reduction and internal fixation of closed ankle fractures, 64

Antibiotic resistance
Antibiotic resistance to Staphylococci adherent to cortical bone, 28

Artery
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73

Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494

The pulmonary artery catheter: A diagnostic adjunct for fat embolism syndrome, 173

Arthroscopy
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273

Atlantoaxial rotatory dislocation
Three-dimensional computerized tomographic demonstration of bilateral atlantoaxial rotatory dislocation in an adult: Report of a case and review of the literature, 67

Auscultation
The reliability of detecting screw penetration of the acetabulum by intraoperative auscultation, 404

Autofusions
Proximal interphalangeal joint autofusions after extensive burns, 249

Biomechanics
A biomechanical analysis of four humeral *fracture fixation systems, 233*

Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: *Comparison of two fixation techniques, 215*

Biomechanical evaluation of methods of internal fixation of the distal humerus, 468

Box plate fixation of the symphysis pubis: Biomechanical evaluation of a new technique, 483

Comparison of the Howmedica and Synthes military external fixation frames, 119

Comparison of torsional strength of humeral intramedullary nailing: A cadaveric study, 414

Evaluation of methods of internal fixation of transverse patella fractures: A biomechanical study, 147

Blood flow
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia *model in sheep, 373*

Bone dissection
A modified technique for removing a bent *intramedullary nail minimizing bone and soft tissue dissection, 181*

Bone graft
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88

Reconstructive amputation after grade IIIC open tibial fracture, 354

Bone mineral density
Effects of retained diaphyseal plates on forearm bone density and grip strength, 462

Book reviews
Anterior Cervical Spine Surgery, edited by Thomas S. Whitecloud and Stewart B. Dunsker, 267

Biomechanics in Orthopedic Trauma, by Allan Tencer and Kenneth D. Johnson, 528

The Elbow, edited by Bernie Morrey, 362

Management of Pediatric Fractures, by R. Mervyn Letts, 363

MRI of the Spine, by T. E. Amour, S. C. Hodges, R. W. Laakman, and D. E. Tamas, 268

Office Operative Arthroscopy, by Neal C. Small, 362

Orthopaedic Dictionary, by Stanley Hoppenfield and Michael S. Zeide, 363

Orthopaedic Trauma Protocols, edited by Sigvard T. Hansen, Jr. and Marc F. Swiontkowski, 267

Practical Fracture Treatment, by Ronald McRae, 528

Skeletal Trauma in Children, by Neil E. Green and Marc F. Swiontkowski, 363

Spine: State of the Art Reviews: Spinal Fracture Dislocations, edited by Mark Lorenz, 268

Surgery for Spinal Cord Injuries. (Principles and Techniques in Spine Surgery Series), edited by Steven R. Garfin and Bruce E. Northup, 362

Box plate fixation
Box plate fixation of the symphysis pubis: Biomechanical evaluation of a new *technique, 483*

Brachial plexus injury
Concomitant rotator cuff tear and brachial *plexus injury in association with anterior* shoulder dislocation: Unhappy triad of the shoulder, 429

Bracing
Bracing of stable shaft fractures of the ulna, 245

Burns
Proximal interphalangeal joint autofusions after extensive burns, 249

Calcaneus
Pinless calcaneus traction: A preliminary report, 338

Calcification
Cystic degeneration and calcification of muscle: Late sequelae of compartment syndrome, 440

Treatment of compartment liquefaction as a late sequelae of a lower limb compartment syndrome, 445

Carpus
Pediatric carpal fracture dislocation, 76

Scaphoid fracture as a puncher's fracture, 107

Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal *radius, 434*

Catheterization
The pulmonary artery catheter: A diagnostic *adjunct for fat embolism syndrome, 173*

Cerclage steel wire
Fatigue testing of Cerclage stainless steel wire *fixation, 422*

Clavicle
Midshaft clavicle nonunions treated with *intramedullary Steinman pin fixation and* onlay bone graft, 88

Clindamycin
Distribution of clindamycin in cortical bone during direct local infusion of the canine tibia, 383

Closed fracture
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Production of a standard closed fracture in the rat tibia, 111

Cloverleaf plate
Treatment of three- and four-part fractures of the proximal humerus with a modified cloverleaf plate, 15

Compartment syndrome
Cystic degeneration and calcification of muscle: Late sequelae of compartment syndrome, 440
Intracompartmental pressure measurements in the normal forearm (erratum), 365
Morbidity after crush injuries of the foot, 343
Tibial compartment syndrome after tibial nailing, 212
Treatment of compartment liquefaction as a late sequelae of a lower limb compartment syndrome, 445
The use of the unreamed nail in tibial fractures with concomitant preoperative or intraoperative elevated compartment pressure or compartment syndrome, 203

Compression hip screw
A prospective comparative study of the compression hip screw and the gamma nail, 367

Compression plate
A retrospective analysis of plate contouring in the tibia using the conventional 4.5 (narrow) dynamic compression plate, 59

Computed tomography
Evaluation of process fractures of the talus using computed tomography, 332
Three-dimensional computerized tomographic demonstration of bilateral atlantoaxial rotatory dislocation in an adult: Report of a case and review of the literature, 67

Contact stresses
Effects of imposed hindfoot constraint on ankle contact mechanics for displaced lateral malleolar fractures, 511
Intraarticular contact stresses with simulated ankle malunions, 159

Controlled delivery
An experimental rat model allowing controlled delivery of substances to evaluate fracture healing, 490

Cortical bone
Antibiotic resistance to Staphylococci adherent to cortical bone, 28
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373
Distribution of clindamycin in cortical bone during direct local infusion of the canine tibia, 383

Crush injuries
Morbidity after crush injuries of the foot, 343

Cystic degeneration
Cystic degeneration and calcification of muscle: Late sequelae of compartment syndrome, 440

Deep venous thrombosis
Deep venous thrombosis complicating rupture of the medial head of the gastrocnemius muscle, 263

Degloving injury
Closed degloving injury of the fifth toe, 265

Dislocation
Ankle dislocation, 167
Anterolateral subluxation of the talus after overlooked dislocation of the tibialis posterior tendon, 449
Concomitant rotator cuff tear and brachial plexus injury in association with anterior shoulder dislocation: Unhappy triad of the shoulder, 429
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
The floating radius in bipolar fracture-dislocation of the forearm, 99
Ipsilateral hip and knee dislocation, 177
Locked posterior dislocation of the shoulder: Treatment using rotational osteotomy of the humerus, 286
Pediatric carpal fracture dislocation, 76
Three-dimensional computerized tomographic demonstration of bilateral atlantoaxial rotatory dislocation in an adult: Report of a case and review of the literature, 67
Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal radius, 434

Dog
Distribution of clindamycin in cortical bone during direct local infusion of the canine tibia, 383
Limited internal fixation of the tibia with external fixation: An in vivo canine study, 50

Elbow
Treatment of radial head fractures with absorbable polyglycolide pins: A study on the security of the fixation in 38 cases, 94

Epiphysiodesis
Ilizarov's technique in correction of ankle malunion, 520

False aneurysm
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73

Fat embolism
The pulmonary artery catheter: A diagnostic adjunct for fat embolism syndrome, 173

Fatigue testing
Fatigue testing of Cerclage stainless steel wire fixation, 422

Femoral artery
Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494

Femur
Anterograde interlocked nailing of distal femoral fractures after gunshot wounds, 220
Extramedullary skeletal traction for intramedullary nailing, 409
Femur fractures in alpine skiing: Classification and mechanisms of injury in 85 cases, 310
Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494
Immediate interlocking nailing of fractures of the femur caused by low- to mid-velocity gunshots, 134
Initial experience with the treatment of supracondylar femoral fractures using the supracondylar intramedullary nail: A preliminary report, 322
Long term results of unicondylar fractures of the femur, 142
A prospective comparative study of the compression hip screw and the gamma nail, 367
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315

Fibula
Danger zones associated with fibular osteotomy, 54

Fixation
Acetabular fractures: Long-term follow-up of open reduction and internal fixation, 397
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Bicondylar tibial plateau fractures treated with a hybrid ring external fixator: A preliminary study, 455
A biomechanical analysis of four humeral fracture fixation systems, 233
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215
Biomechanical evaluation of methods of internal fixation of the distal humerus, 468
Box plate fixation of the symphysis pubis: Biomechanical evaluation of a new technique, 483
Cannulated hip screws: A study of fixation integrity, cut-out resistance, and high-cycle bending fatigue performance, 293
Comparison of the Howmedica and Synthes military external fixation frames, 119
Complex fracture of the radial neck in a child: An unusual case, 255
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
Double-blind randomized prospective study of the efficacy of antibiotic prophylaxis for open reduction and internal fixation of closed ankle fractures, 64
Evaluation of methods of internal fixation of transverse patella fractures: A biomechanical study, 147
Fatigue testing of Cerclage stainless steel wire fixation, 422
Internal fixation of proximal humerus fractures using the screw-tension band technique, 23
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476
Limited internal fixation of the tibia with external fixation: An in vivo canine study, 50
Long term results of unicondylar fractures of the femur, 142
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88
Pinless calcaneus traction: A preliminary report, 338
A prospective comparative study of the compression hip screw and the gamma nail, 367
Three-dimensional computerized tomographic demonstration of bilateral atlantoaxial rotatory dislocation in an adult: Report of a case and review of the literature, 67
Treatment of radial head fractures with absorbable polyglycolide pins: A study on the security of the fixation in 38 cases, 94
Treatment of three- and four-part fractures of the proximal humerus with a modified cloverleaf plate, 15

Foot
Morbidity after crush injuries of the foot, 343

Forearm
Effects of retained diaphyseal plates on forearm bone density and grip strength, 462
The floating radius in bipolar fracture-dislocation of the forearm, 99
Intracompartmental pressure measurements in the normal forearm (erratum), 365

Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431
Traumatic plastic bowing deformity of the radius and ulna in a skeletally mature adult, 258

Fracture
Acetabular fractures: Long-term follow-up of open reduction and internal fixation, 397
Anterograde interlocked nailing of distal femoral fractures after gunshot wounds, 220
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Bicondylar tibial plateau fractures treated with a hybrid ring external fixator: A preliminary study, 455
A biomechanical analysis of four humeral fracture fixation systems, 233
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215
Biomechanical evaluation of methods of internal fixation of the distal humerus, 468
Box plate fixation of the symphysis pubis: Biomechanical evaluation of a new technique, 483
Bracing of stable shaft fractures of the ulna, 245
Cannulated hip screws: A study of fixation integrity, cut-out resistance, and high-cycle bending fatigue performance, 293
Complex fracture of the radial neck in a child: An unusual case, 255
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373
Double-blind randomized prospective study of the efficacy of antibiotic prophylaxis for open reduction and internal fixation of closed ankle fractures, 64
Effects of imposed hindfoot constraint on ankle contact mechanics for displaced lateral malleolar fractures, 511
Effects of retained diaphyseal plates on forearm bone density and grip strength, 462
Evaluation of methods of internal fixation of transverse patella fractures: A biomechanical study, 147
Evaluation of process fractures of the talus using computed tomography, 332
Femur fractures in alpine skiing: Classification and mechanisms of injury in 85 cases, 310
Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494
The floating radius in bipolar fracture-dislocation of the forearm, 99
Fracture blisters: Clinical and pathological aspects (erratum), 79
Fractures of the acromion process: A proposed classification system, 6, 359
Immediate interlocking nailing of fractures of the femur caused by low- to mid-velocity gunshots, 134
Initial experience with the treatment of supracondylar femoral fractures using the supracondylar intramedullary nail: A preliminary report, 322
Internal fixation of proximal humerus fractures using the screw-tension band technique, 23
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476
Intraarticular contact stresses with simulated ankle malunions, 159
Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524
Locked posterior dislocation of the shoulder: Treatment using rotational osteotomy of the humerus, 286
Long term results of unicondylar fractures of the femur, 142
Median nerve palsy after operative treatment of intraarticular distal humerus fracture with intact supracondylar process, 252
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88
Osteochondroma formation after a Salter II fracture, 437
Pediatric carpal fracture dislocation, 76
Plain radiographic interpretation in trimalleolar ankle fractures poorly assesses posterior fragment size, 328
Production of a standard closed fracture in the rat tibia, 111
Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34
A prospective comparative study of the compression hip screw and the gamma nail, 367
Prospective study of union rate of open tibial fractures treated with locked, unreamed intramedullary nails, 45, 359
Reconstructive amputation after grade IIIC open tibial fracture, 354
Scaphoid fracture as a puncher's fracture, 107
Severe open fractures of the lower extremity: A retrospective evaluation of the mangled extremity severity score (MESS), 81
Severity scores in open fractures of the tibia (letter), 527
SSEP monitoring during pelvic and acetabular fracture surgery, 127
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315
Tibia fractures produced from the impact of a baseball bat, 154
Tibial plateau fractures: A study of associated soft tissue injuries, 183
Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal radius, 434
The treatment of open tibial shaft fractures using an interlocked intramedullary nail without reaming, 504
Treatment of radial head fractures with absorbable polyglycolide pins: A study on the security of the fixation in 38 cases, 94
Treatment of three- and four-part fractures of the proximal humerus with a modified cloverleaf plate, 15
The use of the unreamed nail in tibial fractures with concomitant preoperative or intraoperative elevated compartment pressure or compartment syndrome, 203

Gamma nail
A prospective comparative study of the compression hip screw and the gamma nail, 367

Gastrocnemius muscle
Deep venous thrombosis complicating rupture of the medial head of the gastrocnemius muscle, 263
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40

Grip strength
Effects of retained diaphyseal plates on forearm bone density and grip strength, 462

Gunshot wounds
Anterograde interlocked nailing of distal femoral fractures after gunshot wounds, 220
Immediate interlocking nailing of fractures of the femur caused by low- to mid-velocity gunshots, 134

Head injury
The management of long bone fractures in the head-injured polytrauma patient, 1

Hemorrhagic shock
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300

Heterotopic ossification
Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34

Hip
Cannulated hip screws: A study of fixation integrity, cut-out resistance, and high-cycle bending fatigue performance, 293
Femur fractures in alpine skiing: Classification and mechanisms of injury in 85 cases, 310
Ipsilateral hip and knee dislocation, 177
A prospective comparative study of the compression hip screw and the gamma nail, 367

Hospital costs
Motorcycle accident injury severity, blood alcohol levels, insurance status, and hospital costs: A 4-year study in St. Petersburg, Florida, 228

Howmedica fixator
Comparison of the Howmedica and Synthes military external fixation frames, 119

Humerus
A biomechanical analysis of four humeral fracture fixation systems, 233
Biomechanical evaluation of methods of internal fixation of the distal humerus, 468
Comparison of torsional strength of humeral intramedullary nailing: A cadaveric study, 414
Internal fixation of proximal humerus fractures using the screw-tension band technique, 23
Locked posterior dislocation of the shoulder: Treatment using rotational osteotomy of the humerus, 286
Median nerve palsy after operative treatment of intraarticular distal humerus fracture with intact supracondylar process, 252
Treatment of delayed and nonunions of the humeral shaft using the Seidel locking nail: A preliminary report of five cases, 240
Treatment of three- and four-part fractures of the proximal humerus with a modified cloverleaf plate, 15

Ilizarov's technique
Ilizarov's technique in correction of ankle malunion, 520

Incongruity
Effects of imposed hindfoot constraint on ankle contact mechanics for displaced lateral malleolar fractures, 511

Indomethacin
Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34

Infection
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40

Injury danger zones
Danger zones associated with fibular osteotomy, 54

Injury severity score
Motorcycle accident injury severity, blood alcohol levels, insurance status, and hospital costs: A 4-year study in St. Petersburg, Florida, 228
Save the tress: A comparative review of skier-tree collisions, 116

Intramedullary nailing
A biomechanical analysis of four humeral fracture fixation systems, 233
Comparison of torsional strength of humeral intramedullary nailing: A cadaveric study, 414
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300
Extramedullary skeletal traction for intramedullary nailing, 409
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73
Initial experience with the treatment of supracondylar femoral fractures using the supracondylar intramedullary nail: A preliminary report, 322
Intramedullary nailing of the tibia without a fracture table: The transfixion pin distractor technique, 195
A modified technique for removing a bent intramedullary nail minimizing bone and soft tissue dissection, 181
Nonunion of the tibia treated with a reamed intramedullary nail, 189
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315
Treatment of delayed and nonunions of the humeral shaft using the Seidel locking nail: A preliminary report of five cases, 240
The treatment of open tibial shaft fractures using an interlocked intramedullary nail without reaming, 504
The use of the unreamed nail in tibial fractures with concomitant preoperative or intraoperative elevated compartment pressure or compartment syndrome, 203

Intramedullary nails
Prospective study of union rate of open tibial fractures treated with locked, unreamed intramedullary nails, 45, 359

Intraoperative distractor
Intramedullary nailing of the tibia without a fracture table: The transfixion pin distractor technique, 195
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315

Irrigation solutions
The efficacy of various irrigation solutions in remote slime-producing *Staphylococcus*, 390

Joints
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
Evaluation of process fractures of the talus using computed tomography, 332
Proximal interphalangeal joint autofusions after extensive burns, 249

Knee
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
Ipsilateral hip and knee dislocation, 177

Laser Doppler flowmetry
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373

Leg
Deep venous thrombosis complicating rupture of the medial head of the gastrocnemius muscle, 263

Ligaments
Ankle dislocation, 167

Liquefaction
Treatment of compartment liquefaction as a late sequelae of a lower limb compartment syndrome, 445

Long bone fractures
The management of long bone fractures in the head-injured polytrauma patient, 1

Lower extremity
Severe open fractures of the lower extremity: A retrospective evaluation of the mangled extremity severity score (MESS), 81
Severity scores in open fractures of the tibia (letter), 527

Lung
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300

Malunion
Ilizarov's technique in correction of ankle malunion, 520
Intraarticular contact stresses with simulated ankle malunions, 159

Mangled extremity severity score (MESS)
Mangled extremity severity score: An accurate guide to treatment of the severely injured upper extremity, 282
Severe open fractures of the lower extremity: A retrospective evaluation of the mangled extremity severity score (MESS), 81
Severity scores in open fractures of the tibia (letter), 527

Median nerve palsy
Median nerve palsy after operative treatment of intraarticular distal humerus fracture with intact supracondylar process, 252

Monteggia injury
Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431

Muscle
Cystic degeneration and calcification of muscle: Late sequelae of compartment syndrome, 440

Nailing
Anterograde interlocked nailing of distal femoral fractures after gunshot wounds, 220
A biomechanical analysis of four humeral fracture fixation systems, 233
Comparison of torsional strength of humeral intramedullary nailing: A cadaveric study, 414
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300
Extramedullary skeletal traction for intramedullary nailing, 409
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73
Immediate interlocking nailing of fractures of the femur caused by low- to mid-velocity gunshots, 134
Initial experience with the treatment of supracondylar femoral fractures using the supracondylar intramedullary nail: A preliminary report, 322
Intramedullary nailing of the tibia without a fracture table: The transfixion pin distractor technique, 195
A modified technique for removing a bent intramedullary nail minimizing bone and soft tissue dissection, 181
Nonunion of the tibia treated with a reamed intramedullary nail, 189
Pinless calcaneus traction: A preliminary report, 338
A prospective comparative study of the compression hip screw and the gamma nail, 367
Prospective study of union rate of open tibial fractures treated with locked, unreamed intramedullary nails, 45, 359
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315
Tibial compartment syndrome after tibial nailing, 212
Treatment of delayed and nonunions of the humeral shaft using the Seidel locking nail: A preliminary report of five cases, 240
The treatment of open tibial shaft fractures using an interlocked intramedullary nail without reaming, 504
The use of the unreamed nail in tibial fractures with concomitant preoperative or intraoperative elevated compartment pressure or compartment syndrome, 203

Neck
Complex fracture of the radial neck in a child: An unusual case, 255

Neer score
Long term results of unicondylar fractures of the femur, 142

Nerve injury
Median nerve palsy after operative treatment of intraarticular distal humerus fracture with intact supracondylar process, 252
Morbidity after crush injuries of the foot, 343
SSEP monitoring during pelvic and acetabular fracture surgery, 127

Neurovascular structures
Danger zones associated with fibular osteotomy, 54

Nonunion
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88
Nonunion of the tibia treated with a reamed intramedullary nail, 189
Treatment of delayed and nonunions of the humeral shaft using the Seidel locking nail: A preliminary report of five cases, 240

Onlay bone graft
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88

Open fractures
Mangled extremity severity score: An accurate guide to treatment of the severely injured upper extremity, 282
Prospective study of union rate of open tibial fractures treated with locked, unreamed intramedullary nails, 45, 359
Reconstructive amputation after grade IIIC open tibial fracture, 354
Severe open fractures of the lower extremity: A retrospective evaluation of the mangled extremity severity score (MESS), 81
Severity scores in open fractures of the tibia (letter), 527
The treatment of open tibial shaft fractures using an interlocked intramedullary nail without reaming, 504

Ossification, heterotopic
Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34

Osteochondroma
Osteochondroma formation after a Salter II fracture, 437

Osteosynthesis
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215

Osteotomy
Danger zones associated with fibular osteotomy, 54
Locked posterior dislocation of the shoulder: Treatment using rotational osteotomy of the humerus, 286

Patella
Evaluation of methods of internal fixation of transverse patella fractures: A biomechanical study, 147
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40

Pediatrics
Complex fracture of the radial neck in a child: An unusual case, 255
Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431
Pediatric carpal fracture dislocation, 76

Pelvis
Box plate fixation of the symphysis pubis: Biomechanical evaluation of a new technique, 483
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476
SSEP monitoring during pelvic and acetabular fracture surgery, 127

Perilunate dislocation
Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal radius, 434

Plastic deformation
Traumatic plastic bowing deformity of the radius and ulna in a skeletally mature adult, 258

Plate contouring
A retrospective analysis of plate contouring in the tibia using the conventional 4.5 (narrow) dynamic compression plate, 59

Plating
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476

Polytrauma
The management of long bone fractures in the head-injured polytrauma patient, 1

Popliteal artery
Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494

Posterior tibial tendons
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524

Prophylaxis
Double-blind randomized prospective study of the efficacy of antibiotic prophylaxis for open reduction and internal fixation of closed ankle fractures, 64
Prophylactic indomethacin for the prevention of heterotopic ossification after acetabular fracture surgery in high-risk patients, 34

Proximal interphalangeal joint
Proximal interphalangeal joint autofusions after extensive burns, 249

Pubic ramus
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476

Pulmonary artery
The pulmonary artery catheter: A diagnostic adjunct for fat embolism syndrome, 173

Puncher's fracture
Scaphoid fracture as a puncher's fracture, 107

Radial head fractures
Treatment of radial head fractures with absorbable polyglycolide pins: A study on the security of the fixation in 38 cases, 94

Radiography
Plain radiographic interpretation in trimalleolar ankle fractures poorly assesses posterior fragment size, 328

Radius
The floating radius in bipolar fracture-dislocation of the forearm, 99
Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431
Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal radius, 434
Traumatic plastic bowing deformity of the radius and ulna in a skeletally mature adult, 258

Rat
An experimental rat model allowing controlled delivery of substances to evaluate fracture healing, 490
Production of a standard closed fracture in the rat tibia, 111

Reduction
Acetabular fractures: Long-term follow-up of open reduction and internal fixation, 397
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
Double-blind randomized prospective study of the efficacy of antibiotic prophylaxis for open reduction and internal fixation of closed ankle fractures, 64
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524
Technique of using the AO-femoral distractor for femoral intramedullary nailing, 315
Treatment of three- and four-part fractures of the proximal humerus with a modified cloverleaf plate, 15

Revised trauma score
Save the trees: A comparative review of skier-tree collisions, 116

Rotor cuff injury
Concomitant rotator cuff tear and brachial plexus injury in association with anterior shoulder dislocation: Unhappy triad of the shoulder, 429

Rupture
Deep venous thrombosis complicating rupture of the medial head of the gastrocnemius muscle, 263

Salter-Harris fracture
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524
Osteochondroma formation after a Salter II fracture, 437

Scaphoid
Scaphoid fracture as a puncher's fracture, 107

Schatzker type VI complex tibial plateau fracture
Bicondylar tibial plateau fractures treated with a hybrid ring external fixator: A preliminary study, 455

Sciatic nerve injury
SSEP monitoring during pelvic and acetabular fracture surgery, 127

Screw fixation
Cannulated hip screws: A study of fixation integrity, cut-out resistance, and high-cycle bending fatigue performance, 293
Internal fixation of the unstable anterior pelvic ring: A biomechanical comparison of standard plating techniques and the retrograde medullary superior pubic ramus screw, 476
Long term results of unicondylar fractures of the femur, 142
A prospective comparative study of the compression hip screw and the gamma nail, 367
The reliability of detecting screw penetration of the acetabulum by intraoperative auscultation, 404

Screw-tension band technique
Internal fixation of proximal humerus fractures using the screw-tension band technique, 23

Seidel locking nail
Treatment of delayed and nonunions of the humeral shaft using the Seidel locking nail: A preliminary report of five cases, 240

Sheep
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373

Shock
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300

Shoulder
Concomitant rotator cuff tear and brachial plexus injury in association with anterior shoulder dislocation: Unhappy triad of the shoulder, 429
Fractures of the acromion process: A proposed classification system, 6, 359
Internal fixation of proximal humerus fractures using the screw-tension band technique, 23
Locked posterior dislocation of the shoulder: Treatment using rotational osteotomy of the humerus, 286

Skeletal traction
Extramedullary skeletal traction for intramedullary nailing, 409

Skiing injuries
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Femur fractures in alpine skiing: Classification and mechanisms of injury in 85 cases, 310
Save the trees: A comparative review of skier-tree collisions, 116

Slime
The efficacy of various irrigation solutions in remote slime-producing *Staphylococcus*, 390

Soft tissue injury
A modified technique for removing a bent intramedullary nail minimizing bone and soft tissue dissection, 181
Tibia fractures produced from the impact of a baseball bat, 154
Tibial plateau fractures: A study of associated soft tissue injuries, 183

Somatosensory evoked potential (SSEP)
SSEP monitoring during pelvic and acetabular fracture surgery, 127

Stabilization
The management of long bone fractures in the head-injured polytrauma patient, 1
Staphylococci
Antibiotic resistance to Staphylococci adherent to cortical bone, 28
The efficacy of various irrigation solutions in remote slime-producing *Staphylococcus*, 390
Steinman pin
Midshaft clavicle nonunions treated with intramedullary Steinman pin fixation and onlay bone graft, 88
Subtalar joint
Evaluation of process fractures of the talus using computed tomography, 332
Supracondylar process
Initial experience with the treatment of supracondylar femoral fractures using the supracondylar intramedullary nail: A preliminary report, 322
Median nerve palsy after operative treatment of intraarticular distal humerus fracture with intact supracondylar process, 252
Swan-Ganz catheter
The pulmonary artery catheter: A diagnostic adjunct for fat embolism syndrome, 173
Syndesmosis
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215
Synthes fixator
Comparison of the Howmedica and Synthes military external fixation frames, 119

Talus
Anterolateral subluxation of the talus after overlooked dislocation of the tibialis posterior tendon, 449
Evaluation of process fractures of the talus using computed tomography, 332
Tendons
Anterolateral subluxation of the talus after overlooked dislocation of the tibialis posterior tendon, 449
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40
Thrombophlebitis
Deep venous thrombosis complicating rupture of the medial head of the gastrocnemius muscle, 263
Tibia
Arthroscopically assisted treatment of lateral tibial plateau fractures in skiers: Use of a cannulated reduction system, 273
Bicondylar tibial plateau fractures treated with a hybrid ring external fixator: A preliminary study, 455
Cortical bone blood flow in reamed and unreamed locked intramedullary nailing: A fractured tibia model in sheep, 373
Distribution of clindamycin in cortical bone during direct local infusion of the canine tibia, 383
False aneurysm of the medial inferior genicular artery after intramedullary nailing of the tibia, 73
Intramedullary nailing of the tibia without a fracture table: The transfixion pin distractor technique, 195
Irreducible Salter-Harris type II fracture of the distal tibial epiphysis, 524
Limited internal fixation of the tibia with external fixation: An in vivo canine study, 50
Nonunion of the tibia treated with a reamed intramedullary nail, 189
Pinless calcaneus traction: A preliminary report, 338
Plain radiographic interpretation in trimalleolar ankle fractures poorly assesses posterior fragment size, 328
Production of a standard closed fracture in the rat tibia, 111
Prospective study of union rate of open tibial fractures treated with locked, unreamed intramedullary nails, 45, 359
Reconstructive amputation after grade IIIC open tibial fracture, 354
A retrospective analysis of plate contouring in the tibia using the conventional 4.5 (narrow) dynamic compression plate, 59
Severe open fractures of the lower extremity: A retrospective evaluation of the mangled extremity severity score (MESS), 81
Severity scores in open fractures of the tibia (letter), 527
Tibia fractures produced from the impact of a baseball bat, 154
Tibial compartment syndrome after tibial nailing, 212
Tibial plateau fractures: A study of associated soft tissue injuries, 183
The treatment of open tibial shaft fractures using an interlocked intramedullary nail without reaming, 504
The use of the unreamed nail in tibial fractures with concomitant preoperative or intraoperative elevated compartment pressure or compartment syndrome, 203
Tibialis posterior tendon
Anterolateral subluxation of the talus after overlooked dislocation of the tibialis posterior tendon, 449
Tibiofibular joint
Biomechanical effects of internal fixation of the distal tibiofibular syndesmotic joint: Comparison of two fixation techniques, 215
Delayed presentation: Dislocation of the proximal tibiofibular joint after knee dislocation, 350
Toe
Closed degloving injury of the fifth toe, 265
Torsion
Comparison of torsional strength of humeral intramedullary nailing: A cadaveric study, 414
Traction
Extramedullary skeletal traction for intramedullary nailing, 409
Pinless calcaneus traction: A preliminary report, 338
Transfixion pins
Intramedullary nailing of the tibia without a fracture table: The transfixion pin distractor technique, 195
Trauma
Anterograde interlocked nailing of distal femoral fractures after gunshot wounds, 220
Anterolateral subluxation of the talus after overlooked dislocation of the tibialis posterior tendon, 449
Does the reamer type influence the degree of lung dysfunction after femoral nailing following severe trauma? An animal study, 300
Femur fractures with femoral and popliteal artery injuries in blunt trauma, 494
Fractures of the acromion process: A proposed classification system, 6, 359
Immediate interlocking nailing of fractures of the femur caused by low- to mid-velocity gunshots, 134
The management of long bone fractures in the head-injured polytrauma patient, 1
Motorcycle accident injury severity, blood alcohol levels, insurance status, and hospital costs: A 4-year study in St. Petersburg, Florida, 228
Reconstruction of extensor mechanism after trauma and infection by transposition of the Achilles tendon: Report of technique and four cases, 40
Save the trees: A comparative review of skier-tree collisions, 116
Traumatic plastic bowing deformity of the radius and ulna in a skeletally mature adult, 258

Ulna
Bracing of stable shaft fractures of the ulna, 245
Ipsilateral Monteggia equivalent injury and distal radial and ulnar fracture in a child, 431
Transradial styloid, transtriquetral perilunate dislocation of the carpus with an associated fracture of the ulnar border of the distal radius, 434
Traumatic plastic bowing deformity of the radius and ulna in a skeletally mature adult, 258
Unicondylar femur fracture
Long term results of unicondylar fractures of the femur, 142
Upper extremity
Mangled extremity severity score: An accurate guide to treatment of the severely injured upper extremity, 282

Wrist. *See* **Carpus**
